...simplifying speciality

Veterinary Ophthalmology Services

ANIMAL EYE CLINIC has been established and servicing the DFW metroplex for 25 years. We are committed to exceptional customer experience through service excellence. Our veteran support staff is equipped with the resources, longevity and expertise that you and your pet deserve. With a combined seventy years experience at ANIMAL EYE CLINIC and nearly one thousand hours of ophthalmic continuing education, our staff boasts a comprehensive knowledge base of technical practices to help provide fast answers. Advanced training is infused into every aspect of our practice to make it fast and easy to get help, and to maximize the speed and quality of our response. Our team sets us apart from other specialty groups, and our primary focus is your pet.

Our Facility

Our state of the art facility allows us to provide the most contemporary ophthalmic care possible. Animal Eye Clinic showcases five examination rooms, a specially designed electrodiagnostic room, two cutting edge surgical suites and an immaculate post operative recovery kennel.

Our Process

ANIMAL EYE CLINIC is a specialty referral practice limited to veterinary ophthalmology, and is designed to be an extension of the services offered by your regular veterinarian.

Once you make your first phone call to our office, a proven process of success is set into motion. Our friendly front office staff will immediately obtain a complete medical history from your regular veterinarian, eliminating any gaps in communication. We coordinate our resources to identify an appropriate and personalized treatment plan. ANIMAL EYE CLINIC maintains a constant stream of communication with your regular veterinarian throughout your pet's relationship with us. After each visit, we send a copy of the exam and any updates in treatment to your regular veterinarian's office.

Appointments

Office hours are as follows: Monday-Thursday 8:30am-5pm and Friday 9:00am-3:00 pm. Patients are seen by appointment only. Emergency services are available outside of normal business hours when required.

Fees are payable when services are rendered. Payment may be made with cash, electronic check, Visa, MasterCard, American Express, Debit/Check card, or Care Credit. A written estimate of fees will be provided for all patients requiring hospitalization, extensive treatment or surgery.

Our Doctors

Dr. Michael Paulsen and Dr. Stephanie Bell are dedicated to the practice of ophthalmology and how it relates to you. Our doctors use innovative service tools and techniques to provide the cutting edge in ophthalmic care for your pet. They are equipped with the latest surgical, diagnostic and therapeutic equipment to aid in the proper diagnosis and care for your pet. In addition, each doctor utilizes digital photography at each exam which allows them to track your pet's progress, down to the finest detail. These photographs provide a fast and accurate system to update treatment plans efficiently.
